Beautification Meeting

Mission Statement by definition is "the summary of the aims and values of an organization".

The mission statement is what defines an organization's business, objectives, and how to achieve said objectives.

The Halifax Beautification Committee has many wonderful duties and responsibilities listed on the town website, but along with those duties I hope to see a Mission defined for all to see and know what we do.

I worked on a few ideas for a mission statement that I wanted to present tonight.

This is of course just an example, not set in stone and I would love to add, change or adapt the mission statement together and present it to the Select Board as a Committee for approval.
