Supplementary Rules and Regulations to the State Environmental Code: Title 5, 310 CMR 15,000

“Standard Requirements for the siting, construction, inspection, upgrade and expansion of on-site sewage treatment and disposal systems.”

1.10 Septage Hauling, as defined in 15.002

- (1) The application of and/or sale of septic system additives by septage hauling companies is prohibited in the Town of Halifax.
- (2) Any and all Septage pumping, including from the D-box or leaching area and including water if added, will be reflected in gallons on the Septage hauling report.
- (3) All systems within 50 feet of the Monponsett Ponds are included in the Wastewater Management District Regulations and, as such, must have a function report filled out any time the system is pumped. These function reports must be filed with the Board of Health along with the pumping record.
