Resubmission of Disposal Works Construction Permit (DWCP) Fee Policy

On 08/01/2018 the Board voted unanimously that when renewing a septic plan and DWCP that is over two (2) years old, only the difference is due, if any, between the permit fees paid prior to renewal and the current fee if said fee increased.

A Motion was made to change the current re-approval policy of resubmitting a new DWCP permit fee to paying only the difference in fee, if any, between the time the permit was previously issued and the current permit fee.

Motion: John Weber

Second: Alan Dias

Unanimous vote on the motion
