APPLICATION FOR PERMIT UNDER STORMWATER MANAGEMENT BYLAW

The purpose of Halifax's Stormwater Management Bylaw (Chapter 146) and its regulations is to protect, maintain and enhance public health, safety, environment, and general welfare by establishing minimum requirements and procedures to control the adverse effects of increased runoff, decreased ground water recharge, erosion and sedimentation, and nonpoint source pollution associated with new development and redevelopment of land.

WHICH PERMIT DO YOU NEED?

See bullets below each permit type for activities requiring a permit.*

☐ **Stormwater Management Permit**

- Proposed activities will cause land disturbance equal or greater than 1 acre (43,560 square feet)
- Proposed activities are part of a larger common plan of development that will cause land disturbance equal to or greater than 1 acre (43,560 square feet)

☐ **Minor Stormwater Management Permit**

- Proposed activities will cause land disturbance equal to or greater than 50 square feet within the Monponsett Pond Watershed
- Note: if a proposed activity meets criteria for both a Stormwater Management Permit and a Minor Stormwater Management Permit, only a Stormwater Management Permit is needed.

☐ **Biosolids Permit**

- Proposed activities include the application of biosolids on land used for agriculture

*See the Halifax Stormwater Management Regulations Section 4 for more details and note exempt activities in Section 4D.

[illegible]

CERTIFICATION

I hereby certify under the penalties of perjury that this application and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge.
