Supplementary Rules and Regulations to the State Environmental Code: Title 5, 310 CMR 15,000

“Standard Requirements for the siting, construction, inspection, upgrade and expansion of on-site sewage treatment and disposal systems.”

1.08 As-Built Drawings and Certificates of Compliance

- (1) As-Built shall be submitted to the Board of Health office prior to scheduling a final inspection.
- (2) The As-Built plan will be considered as part of the Certificate of Compliance and will include all data as shown on proposed plan and all As-Built data.
- (3) The As-Built plan will also incorporate the following paragraph:

The undersigned hereby declare that the sewage disposal system located at:

<i>Street</i>	<i>Town</i>
<i>has been installed in compliance with the provisions of 310 CMR 15.0 (Title V) and the design plans approved by the Halifax Board of Health relating to the application for the Disposal Works Construction Permit.</i>	
<i>Designer</i> _____	<i>Date</i> _____
<i>Installer</i> _____	<i>Date</i> _____
<i>Inspector</i> _____	<i>Date</i> _____

- (4) As-builts for new or mounded systems shall include a final grading as-built. The Board of Health must have received the final grading as-built before the certificate of compliance will be given out.
- (5) Retaining walls used in septic systems shall be certified by a Mass. Registered Professional Engineer that the wall was constructed as originally designed and approved. This certification statement shall appear on the as-built plan.
- (6) Pressure Dosing Systems, Tight Tanks and Alternative Systems will have signed contracts which provides quarterly monitoring or other monitoring schedule, as required by law of the system by a Board of Health approved inspector before the Certificate of Compliance will be issued.
