SWIMMING POOL PERMIT APPLICATION

ABOVE GROUND POOLS - Require a building permit and an electrical permit which should be taken out at the same time, and a final inspection by the Wiring Inspector and the Building Inspector.

INGROUND POOLS - Require a building permit and an electrical permit which should be taken out at the same time, and a rough and final inspection by the Wiring Inspector and the building Inspector.

OTHER REQUIREMENTS APPLICABLE TO POOLS

- Must be 10 feet from the Septic Tank
- Must be 20 feet from the Leaching Field
- Must be 50 feet from the front property line and may not be in the front yard area.
- Must be 10 feet from the side property line.
- Must be 5 feet from the rear property line.
- Inground pools require wiring and building inspections before concrete is poured.
- Fence protection is required during construction!

Deviation from zoning setback requirements can only be granted by the Zoning Board of Appeals.

“Any swimming pool having a water depth exceeding 24 inches at any point shall be enclosed by a chain-link type fence with openings no greater than 1 1/4 inches wide or by a stockade fence. Said fence shall be not less than 5 feet in height and shall be secured by a self latching gate or gates, which shall be kept securely closed when pool is not in use. Said fence and gate(s) shall be constructed and maintained so as to discourage entry over, through or under the fence by small children.”
